

Annual Report (2020-21)

An Investment in knowledge pays the best interest –Benjamin Franklin.

Here a Khalsa college public school Heir, We provide our students umpteen opportunities to the students in the field of academics, sports, art, technology and overall development by the way of infrastructure and highly qualified staff. It is our constant endeavor to infuse the latest practices in curricular, extra curricular and other activities so that we can achieve our mission "We" step towards inculcating innovation, creativity, eagerness to face challenges and inspire a passion of learning with a hope that we shall overcome".

It gives us immense pleasure to present. The annual report "2020-21" From the spring 2020, our teachers were able to pivot to distance learning in first days while some schools were shuttered for weeks in spite of the challenges of the ongoing pandemic, thanks to the vigilance and cooperation of our staff and families which enabled us to work in such critical conditions.

This year all our students of class X, who appeared for school examination by C.B.S.E session 2019-20 passed with flying colours and the students of other classes also given 100% results.

Our green school programme stayed active during covid period as well which was compulsory to participate for each student. A school encouraged student to plant tree on every special day is on birthday, their family member's birthday or at every festival and share these images on social media to get their networks involved.

We know that PTA is to build strong working relationship among parents, teachers and school in the overall development of students.

We are waiting for the next academic years, we will bring a lot of good programs, activities, training and will conduct here for children to develop their (spiritual) intellectual, emotional, physical, mental and spiritual health in accordance with their age and class.
